

How and why you should niche publish your book!

The rationale and process are explained in the **21 free blogs** listed below. All are found at this site.

The first six blogs explain what “niche publishing” is and why every publisher (and every expert of any stripe) should be running to get in line before the others catch on!

So you can quickly pick the information that you most want to know about “niche publishing,” here is a concise **summary of its benefits.**

If you “niche publish” rather than publish “the regular way” you could...

- * **earn far more money, much faster**, with nary a nick of risk!
- * you'll **never have to compete with big-house publishers**,
- * you'll **never have to sell through bookstores**, and
- * from the topic you select **you could create your own very profitable, life-long empire—with YOU the empress or emperor.** By expanding your sphere of buyers, the benefits of your book and message will continue to multiply your appeal, which will continue to bring you more money even faster—

“Niche publishing” (and “niche marketing”) aren’t magic. But they bring two huge benefits that standard publishers can’t provide.

The first is pre-testability. That means that before you write or print a page of your book, you can pre-test it to see (1) if that book will sell enough copies (that is, the rough number of copies that will be bought and by whom), (2) if the title works, and (3) if you chose the right problem to solve or needs to be met, the right benefit(s) to promise, a persuasive table of contents, and the right author. If the test results yell “GO!”—go. If not, retest until you get the right pre-test response. Or write another book, then build your empire around that book. (The cost of the test? \$500-600? Under \$1,000. If you as a niche publisher using the self-publishing process expect to receive \$100,000 gross from your book sale; \$50,000 net; and the test may cost 1-2% of returns. If the test is no-go, that’s a 2% risk. Take that bet every time!)

The second benefit is that your **niche book can be the core product of an empire** that can triple your book income every year, and multiply that again from spin-off or related books, MP3s, videos, seminars, speeches, reports, consulting, and classes that you can offer or sponsor to your eager book buyers and their colleagues. Why? Because **your book, targeted specifically to those buyers, proves that you’re an expert in their field, that you and your guidance can solve their problems and fix their frustrations.** Why wouldn’t they rush to buy more good stuff from you in book #2 or through a dozen other empire-linked ways once you have proven that what you say or show works as promised?

So that’s where two elements linked to this blog play key roles.

In 2008 I published a book called ***Niche Publishing: Publish Profitably Every Time***. See www.nichepublishing.org for full details and the book's table of contents. That book has sold out in four different renditions, and the paperback issue is still unavailable (unless Amazon is selling old copies of it and keeping the royalties.)

Eureka! **The original, last version is still alive in digital format.** It's available for \$7. We offer it, instantly downloadable, at www.gordonburgett.com.order3.htm.

I've offered 100+ four-hour seminars about niche publishing and have had the opportunity to hear every question, challenge, and suggestion about the process. I still remain convinced that, done as suggested, it is still the best process (with the least risk, if any) and the fastest and safest way for self-publishers to enter the field and reap the rewards.

Alas, while there are many "empires," as I call them, prospering today, it's more difficult to tie them directly to the emergence of one book and one gutsy, hard-working emperor or empress drawing their buyers to the empirical central theme.

What I see more often is a speaker emerging from a topic field with a new idea or process and a following drawn from attendees at their seminars, keynote speeches, or breakout sessions. Somewhat less obvious is the leader's book that serves as the central focus of the unique message the "leader" comes to represent. But what stays as the binding tool as that "empire" takes form is the book, and spin-offs from it, that continue to give substance and breadth to the person and their idea. The point: **empires are usually built from a book's foundation.**

Final points.

If niche publishing seems to fit your path of development, the

one element least discussed but most needed is likely shared as much by you as it was by me: we can build our niche empires faster, better, and surer if we take the time to **create a solid strategy for growth**. Then focus on one message, like the big tree, from which our modest forests will eventually grow. **Make oneself “the” core of something that others in our orb need for their own development**. Write “the” book that your colleagues must master to create (or at least establish) their own excellence. Focus there, spread your process and message until its name and your become synonymous. (The topic of self-publishing is synonymous with the name Dan Poynter. That began with his book *The Self-Publishing Manual*.)

That’s where the remaining 21 blogs fit in. They answer the questions a “niche publisher” must ask. They are trees in our forest. Combine them with *Niche Publishing: Publish Profitably Every Time!*
